## Matratzendrell

Bei allen Matratzen ist der Matratzenbezug identisch. Er besteht aus einem hochwertigen, atmungsaktiven Doppeltuch. Zusammensetzung: 62 % Polyester und 38 % Lyocell. Lyocell ist eine Faser, die eine hohe Nass- und Trockenfestigkeit hat. Die Feuchtigkeit wird gut absorbiert und der Bezug weist eine geringe Knitterbildung und eine angenehme Haptik auf.

Der Bezug der Matratze ist komplett abnehmbar und bei 60°C waschbar – allergikergerecht.

Die Matratzen sind zusätzlich mit einem Seitenborder versehen. Der Border gibt der Matratze eine bessere Passform und eine kubische Optik. Das Doppeltuch wird mit einer hochwertigen Klimafaser versteppt. Diese Polyesterfaser ist sehr saugfähig und nimmt die vom Schläfer nachts ausgeschwitzte Feuchtigkeit auf, führt diese vom Körper weg und gibt sie tagsüber wieder ab.

Die Gesamthöhe der Matratze beträgt jeweils ca. 15 cm.

## Matress cover

The mattress cover is the same for all types of mattresses. The cover consists of a high-quality breathable double cloth. Composition: 62 % polyester and 38 % Lyocell. Lyocell is a fiber which has a high wet and dry strength. The moisture is absorbed well and the cover has a slight creasing and a pleasant haptics.

The cover is completely removable and washable at 60 degrees – indispensable for allergy.

The mattresses are also provided with a decorative border for a better fit and a more cubic optic. The double cloth is quilted with a high-quality climate fiber. This polyester fiber is highly absorbent and takes the moisture – lost through sweating by the sleeping person during the night – away from the body and gives it back to the environment during the day.

The total height of the mattress is approx.. 15 cm.

## Federkernmatratze

## Taschenfederkernmatratze

Bei der Taschenfederkernmatratze sind die Federn einzeln in Taschen eingepackt und nur mittig mit einander verbunden. Dadurch ergibt sich eine höhere Punktelastizität als beim Bonellfederkern.

Das Klimaverhalten dieser Matratze ist sehr gut, da genau wie bei der Bonellfederkernmatratze der Innenkern sehr luftdurchlässig ist.

-  anpassungsfähiger 9 cm hoher Tonnentaschenfederkern mit 1,8 mm Drahtstärke für punktelastischen Liegekomfort
-  weicher und elastischer Polsterträger zzgl. Innenbezug zum Schutz des Kerns
-  luftdurchlässige und flexible Polsterung
-  Allergiker-gerecht

## Pocket spring mattress

The springs are individually wrapped in pockets and only centrally connected together. This results in a higher local elasticity than the "Bonell" inner-spring. The climate behavior of this mattress is

very good, as well as in the "Bonell" spring mattress the innerspring is highly breathable.

-  9 cm high pocket sprung with a 1,8 mm wire strength for a better sleepcomfort
-  soft and elastic upholstery plus inner cover to protect the core
-  flexibly upholstered for maximum airing, approx. 14 cm thick, the high resilience and elasticity of the foam allows an excellent air flow
-  treated against dustmite allergies

## Kaltschaummatratze

Die Kaltschaummatratzen haben eine bessere Punktelastizität und höhere Rückstellkräfte als normale Schaummatratzen. Kaltschaummatratzen werden während des Produktionsvorganges stark

zusammen gestaucht. Dieser Prozess bewirkt, dass die Poren im Schaum aufbrechen und die Matratze offenerporiger wird. Das ist gut für das Klimaverhalten der Matratze.

-  Schulterabsenkung für bessere Schlafqualität
-  ca. 14 cm hoher offenerporiger, hochelastischer Kaltschaumkern, RG45
-  7-Zonen-Schnitttechnik
-  verstärkte Mittelzone
-  Allergiker-gerecht

## Cold-foam mattress

The cold-foam mattresses have a better local elasticity than regular foam mattresses. Coldfoam mattresses are strongly compressed during the production process. This process causes the pores in the foam burst on the mattress is open pored. This is favorable for the climate behavior of the mattress.

-  shaped shoulder section for better sleeping comfort
-  cold foam approx. 14 cm height giving maximum body support
-  7 zone sections
-  strengthened middle section
-  treated against dustmite allergies

## Gelschaummatratze

Der gelartige Softschaum ist extrem offenzellig und bietet dank der ausgezeichneten Feuchtigkeits- und Wärmeregulierung, der hohen Atmungsaktivität sowie der optimalen Druckentlastung einen

optimalen Liegekomfort für den Schläfer. Die Matratze ist nur einseitig verwendbar.

-  ca. 3 cm hoher offenerporiger, gelartiger Softschaum
-  zweilagiger Kern mit 10 cm Kaltschaumbasis
-  sehr gute Druckentlastung
-  hohe Atmungsaktivität
-  Innenbezug zum Schutz des Kerns
-  Allergiker-gerecht

## Gel foam mattress

The gel-like soft foam is extremely open-cell and offers optimal lying comfort for the sleeper thanks to its excellent moisture and heat regulation, high breathability and optimal pressure relief. The mattress can only be used on one side.

-  approx. 3 cm high open-pored, gel-like soft foam
-  two-layer core with 10 cm cold foam base
-  very good pressure relief
-  high breathability
-  interior cover for protection of the core
-  treated against dustmite allergies

# Stollensystem *spacers*

## Kombinationen mit Stollen lockern auf!

Breiten-, Höhen- und Tiefenkürzungen der Stollen sind kein Problem. Preis s. Zubehör.

Hinweis: Die Aufsatz-Stollen müssen zusätzlich an einer festen Wand, mittels Wandhalterung, verdübelt werden.

Für die übrigen Stollen empfehlen wir die zusätzliche Befestigung zur Stabilisierung. (2 Wandhalterungen pro Stollen sind im Lieferumfang enthalten.)

## Combinations with spacers!

Widths, heights and depth can be customised with no problem.

Advice: The spacers must be attached to the wall with fixings supplied with rawl plugs.

We advice you to affix the spacers to stabilise the unit. (Wall fixings per spacer are included with the delivery)
